

SPX Service Solutions Selected to Manage Vehicle Owner Guides for Ford Motor Company in Asia Pacific and Africa

April 22, 2008 3:24 AM ET

CHARLOTTE, NC - April 22, 2008 - SPX Corporation (NYSE: SPW) today announced that its Service Solutions business has been selected by the Ford Motor Company to support the centralization of owner guides across Asia Pacific and Africa.

"We are a content management partner to Ford and have the expertise to provide a quality transition for its owner guides," said David Kowalski, segment president, SPX. "We are excited about the opportunity to work with Ford and its markets in Asia Pacific and Africa, in delivering this important centralization project," he added.

SPX plans to lead the project from Australia and coordinate with Service Solutions' offices in Asia Pacific, Europe and the Americas. The project is scheduled to begin in August. According to Kowalski, SPX Service Solutions provides content management expertise to many global automotive original equipment manufacturers (OEMs).

"We are undertaking this multi-year project to coordinate the content of owner guides in our many markets in this region," said Mark Cruse, Technical Support Operations Manager, Customer Service Operations, Ford Asia Pacific and Africa. "This will help ensure consistency and synergy across multiple vehicle platforms and configurations, and will ultimately help our markets to provide top quality information to vehicle owners.

"We have selected SPX Service Solutions as our partner for authoring, translation, production and logistics. Its global presence and expertise in all facets of automotive service makes it an ideal partner for this venture," he added.

Current economic and market forecasting from industry sources predicts 800,000 to one million Ford vehicles will be in demand in Asia Pacific and Africa markets over the next two years, with that number doubling by 2012. Total OEM vehicle sales in these markets are forecasted to exceed 21 million in 2008.

SPX Service Solutions, headquartered in Southfield, Michigan and with offices around the world, designs, manufactures and markets a fully integrated family of global brands providing special service tools, advanced diagnostic and shop equipment and technical information for vehicle servicing and maintenance.

SPX Corporation is a Fortune 500 multi-industry manufacturing leader. The company offers highly-specialized engineered solutions to solve critical problems for customers.

SPX is focused on providing solutions that support the expansion of global infrastructure, with particular emphasis on the growing worldwide demand for energy and power. Its innovative product portfolio, containing many environmentally friendly products, includes cooling systems for all types of power plants throughout the world; custom engineered pumps, valves and mixers that assist a variety of flow processes including oil and gas exploration, distribution and refinement; handheld diagnostic tools that aid in vehicle maintenance and repair; and power transformers that regulate voltage for electrical transmission and distribution by utility companies.

SPX is headquartered in Charlotte, North Carolina and employs over 17,000 people worldwide in over 35 countries. Visit www.spx.com.
